No. 51

## NO SPEAKER YET.

Crisp Still Maintains the Lead.

## SPRINGER WILL NOT WITHDRAW.

Stewart of Illinois Will Not Support Mills.

House Opens with the Speakership Question Unsolved.

### Speakership Proceedings

By Associated Press.  
WASHINGTON, Dec. 4.—The day opened without any apparent change in the Speakership contest. The five candidates are as cheerful as ever, and their followers seemed imbued with the same confidence and persistency, which has characterized every feature of the contest. The caucus met promptly at 10 o'clock this morning, and without any preliminary proceedings the Secretary began to call the roll.

There were 227 members present when the balloting commenced. The excitement was intense during the call of the roll. It was realized that the hour for solicitation was passed, and the first ballot was devoid of argumentative scenes which characterized the balloting of Saturday night. Every member was left free to exercise his preference without persuasion, and as the roll-call proceeded and no changes were noted, it became apparent that the claims of the leading candidates were extravagant and that there would be no surprises.

As the followers of all the candidates held firm the eighteenth ballot showed no change from the seventeenth of Saturday night. True, Mills did not receive 91 votes on Saturday night, but this was due to the absence of Terry, of Arkansas, who subsequently entered the hall and voted for the Texas candidate on the succeeding ballot, thus bringing his vote up to the old figure 91. The second ballot of the day, or the nineteenth of the contest, was quite a perfunctory one. It was evident that no choice could be made before 12 o'clock, but that the Fifty-second Congress must open with the speaker's question still unsolved, and that the contest must be resumed after the adjournment of the House in the afternoon.

The nineteenth ballot was finally announced. It was exactly the same as the last ballot of Saturday night. But forty-five minutes now remained before the meeting of the House, and another ballot was impossible. A hasty consultation was held by the leaders and partisans of the several candidates, and an adjournment to 2 p.m. agreed upon.

The eighteenth ballot stood, Crisp 94, Mills 90, Springer 17, McMillan 19, Hatch 5, Stevens 1. Terry of Arkansas, an absentee, came in and voted for Mills.

After the nineteenth ballot the caucus adjourned until 2 o'clock this afternoon, with this morning's balloting showing no change from the situation of Saturday night.

Twenty-first ballot, Crisp 94, Mills 91, McMillan 19, Springer 17, Hatch 5, Stevens 1. Terry of Arkansas, an absentee, came in and voted for Mills.

During the two hours and a half preceding the re-assembling of the caucus at 2 p.m., the supporters of the various candidates displayed ceaseless activity in their efforts to win accession from the followers of each other.

Just before the re-assembling of the caucus this afternoon, Cable of Illinois notified Springer that he had decided to abandon him and vote for Mills. He told Springer he thought his cause a hopeless one and that the interests of the Democratic party demanded the election of Mills.

On the 22d ballot Newberry of Illinois also left Springer and voted for Mills.

Twenty-second ballot, Crisp 95, Mills 93, McMillan 19, Springer 17, Hatch 4, Stevens 1.

The 23d ballot Hatch withdrew. Misses Hatch, Wilson and Byrnes of Missouri voted for Crisp. Stout of Michigan and Shively of Indiana went from Springer to Crisp. Cobb and Dearmond of Missouri went from Hatch to Mills, and the result was: Crisp 100, Mills 96, McMillan 19, Springer 13, Stevens 1.

Immediately the news of Cable's announcement was spread, and it was seized upon as an indication of the dissolution of Springer's forces. The announcement that Newberry would follow caused further excitement. There was a hasty conference of

Springer's other followers, but no line of action was decided upon just then.

Stewart, of Illinois, was indignant at what he denounced the treachery of his colleagues in deserting Springer, and announced that he would not support Mills in any case. This announcement was a thunderclap to Mills' managers, as the Texas candidate all along counted upon the solid support of Springer's Illinois colleagues whenever that gentleman was out of the race. Just before the caucus met Springer announced he was still in the race.

Twenty-fourth ballot, Crisp 101, Mills 95, McMillan 19, Springer 12, Stevens 1.

Twenty-fifth ballot, Crisp 101, Mills 95, McMillan 19, Springer 12, Stevens 1.

Twenty-sixth ballot showed no change from the previous one.

Twenty-seventh ballot, 101 for Crisp Mills 95, McMillan 19, Springer 12 Stevens 1.

### Senators' Credentials

By Associated Press.  
WASHINGTON, Dec. 7.—In the Senate the credentials of Call and Davidson of Florida, each claiming to be Senator from that State, were placed on file. The credentials of Dubois of Idaho were laid on the table until 1 o'clock to-morrow. The name of Hill, Senator-elect from New York, was not printed on the list nor were his credentials presented.

When the credentials of Brice, as Senator-elect from Ohio, were read, Sherman said: "I am entirely satisfied that Brice is entitled to be sworn in *a prima facie* case, as his credentials are regular in form. I simply give this notice, however, so his being sworn may not be considered any waiver or any misapprehension, or misconception, if the people or the Legislature of Ohio should assert and prove to their satisfaction that Senator Brice was not at the time of his election an inhabitant of Ohio."

### Held to Answer.

Special to the GAZETTE.  
MOSKOW, (Cal.), Dec. 7.—Justice Whithy finished hearing the evidence in the robbery cases against Seton, Beren and James Berry, charged with standing up a barkeeper at Robert Cross saloon, Waterford, on the night of the 24th of November. The barkeeper and three others identified the defendants as the masked men who robbed him. Defendant Berry was deputy Constable. Both were held to answer in the Superior Court. The bonds were fixed at \$1,500 each.

### Forster Worse.

By Associated Press.  
WASHINGTON, Dec. 7.—Secretary Foster's illness seems to have assumed a more serious aspect, and another physician has been called in to assist Hamilton in treating the case.

In speaking of the case this morning, Dr. Hamilton said: "Secretary Foster has no pain, but his condition has not improved since the onset of fever Saturday, and the patient is extremely weak."

### Chinese Rebels Defeated.

By Cable and Associated Press.  
LONDON, Dec. 7.—Hung Chang, the Viceroy, telegraphed the *Chronicle's* Shanghai correspondent, confirming the news of the crushing defeat of the rebels. The correspondent then gives further details of the recent massacre, which show it was a veritable carnival of blood. Li Hung Chang telegraphed that martial law is proclaimed throughout Manchuria.

### Hearing Postponed.

By Associated Press.  
WASHINGTON, Dec. 7.—The United States Supreme Court to-day postponed until the second Monday in January the hearing of the cases of Fielden and Schiab, the Chicago anarchists, who were responsible for complicity in the Haymarket riot.

### A Racer Welcomed.

By Associated Press.  
DALLAS, (Tex.), Dec. 7.—C. P. Huntington, replying to a letter from James Simpson, states that owing to the legislative policy of Texas, the Southern Pacific will not extend their lines in that State at present.

### Bodies Removed.

By Cable and Associated Press.  
PAK, Dec. 7.—Since midnight fifteen bodies have been taken from the mine where the explosion occurred yesterday. There are yet twelve bodies in the lower gallery to be removed today.

### Colliery Catastrophe.

By Cable and Associated Press.

PAK, Dec. 7.—Since midnight fifteen bodies have been taken from the mine where the explosion occurred yesterday. There are yet twelve bodies in the lower gallery to be removed today.

### Paying Taxes.

Treasurer Boyd and Deputy Bechtel are kept busy receiving the county taxes and remitting them. The rush will soon be over.

RENO, WASHOE COUNTY, NEVADA, MONDAY, DECEMBER 7, 1891.

## CONGRESS OPENED.

## Chinese Highbinders in Chico.

## THE "BUSTLERS" IN WYOMING.

## A Bankrupt Railway in Los Angeles.

## Proceedings of Miss St. John's Divorce Case.

## Congress Opened.

By Associated Press.

WASHINGTON, Dec. 7.—A special from Sing Sing says: Martin D. Loppy, the wife murderer, has been executed. A signal announcing the execution, has just been run up on the flagstaff. It was preceded by a buzzing noise, indicating that the dynamite had been set at work. A crowd of newspaper men and curious people waited in front of the prison for the witnesses to come out.

Loppy was executed at three minutes past noon.

According to Warden Brown, the execution was carried out the same as at the time of the killing of four men in the same chair in July last. The Warden refused to give any information except to say the law was carried out and the execution of Loppy was a success.

Loppy was more intelligent than any of the other murderers who were confined in the death house. He listened to the reading of the death warrant with bowed head, and when the warrant was finished, the doomed man was led out of his cage. The little procession then started for the death chamber; Warden Brown and keeper Connaughton led the way, directly ahead of Loppy, who had to be led by the keeper through the dark passage way on account of his partial blindness. As soon as Loppy arrived in the execution room, he was promptly placed in the chair and strapped to it so that he could not move, hand or foot.

The electrodes were then applied to

the condemned man, one covering the forehead and temples, and the other the calf of the right leg. The electrodes were moistened with a solution of salt water before the current was turned on. None of the witnesses could reveal how Loppy died. Undoubtedly 1,485 volts were used, the same as at the July execution and that the current from that voltage continued from fifty to sixty seconds. At noon Loppy was pronounced dead; the straps which bound his body were removed, and the dead murderer was carried into the apartment directly off the executive room where an autopsy was held. Loppy's remains were then placed in a rough pine coffin, and some time after sundown this evening the coffin will be placed in a grave filled with quick lime.

### Chinese Highbinders.

Special to the GAZETTE.

CHICAGO, Dec. 7.—Chinatown here is now divided into two companies; one is composed of about 100 of the oldest residents, and all the rest of the Chinamen, about 2,000, compose the other. Some time ago six highbinders from San Francisco located here, and as is their custom demanded the loan of a large sum of money from the old company, which they never pay back. When refused, a general fight ensues, and yesterday noon several highbinders entered the Chinese restaurant, where the Chinamen were eating, and demanded a sum of money. On being refused, one drew a gun and attempted to shoot, but was shot in the left arm before he could use the revolver. His arm was broken and badly lacerated. Many shots were fired by the mongolians, but no others were hurt. The officers arrested six participants. They were released on \$500 bail and will be examined on Thursday. A night watchman was put on in Chinatown to prevent further trouble.

### Weather Report.

Special to the GAZETTE.

SAN FRANCISCO, Dec. 7.—Forecast, rain in northern California.

### Grain Market.

Special to the GAZETTE.

SAN FRANCISCO, Dec. 7.—Wheat, buyer season, \$1 89 1/2.

### BUTTER COWS AND PROFIT.

A Few Facts That Nevada Dairymen Should Read Carefully.

There can be no doubt that a vast number of cows are kept by dairymen which do not pay for their keeping. The average yearly production of butter by some members of almost every herd is far below the profit yielding point. Every such cow is a burden upon her owner, and reduces the profit of those whose yield returns something above the cost of maintenance. Some striking figures illustrative of this point are given by one who has made a thorough study of the subject. They are as follows:

Ten 200-pound butter cows would yield a profit in ten years of \$2,000.

Ten 300-pound cows would yield a profit in ten years of \$4,250.

Ten 400-pound cows would yield a profit in ten years of \$6,457.

Ten 500-pound cows would yield a profit in ten years of \$8,675.

Ten 600-pound cows would yield a profit in ten years of \$11,000.

This would be the net yield after deducting \$25 a year for keeping from two to twelve years old. The estimate is based on the disposal of the product at 23 cents a pound, and none of the cows are credited with a full yield of milk until five years of age.

These are highly suggestive figures. Particularly noticeable is the ratio of increase of profit from the 200-pound cow to the one yielding 400 pounds. The yield is only double, but the profit is trebled. Such results are not attained without effort; but surely they are worth some effort, for they mark the difference between success and dismal failure and loss.

### Was it Murder.

CORONER PEERS and a jury are hearing evidence in the inquest of Wm. H. Hodge, who was roasted Friday night in the Gilmore Garden fire. There was considerable evidence adduced connecting the man Savage, arrested as the incendiary, with the murder of Hodge. It will probably be late tonight before the jury get through and return their verdict.

### Cattle and Sheep.

Richard Herzer called attention to his immense new stock of jewelry, watches, diamonds, etc., in a new ad. in to-day's GAZETTE. He invites the public to call and examine his goods before making their purchases.

### The Commissioners.

The Commissioners met to-day and adjourned until Wednesday next at 10 o'clock sharp, without allowing the monthly bills or transacting any county business. They will do all the business on Wednesday.

### Frost in California.

Special to the GAZETTE.

CHICAGO, Dec. 7.—The weather is cloudy and cold, and there was a heavy frost yesterday and this morning.

### Paying Taxes.

Treasurer Boyd and Deputy Bechtel

### Another Divorce Case.

By Cable and Associated Press.

LONDON, Dec. 7.—Interest is unabated in the St. John divorce case, the crowd at the court this morning being very large and composed mostly of theatrical people.

The first witness called this morning was Surgeon Cooper. He was called to support the charges of cruelty made by Miss St. John. He testified that he was called to attend her. He examined her and found bruises on her back and was also injured, and she was suffering much pain.

Gill, counsel for Maria, resumed his questioning of Miss St. John, who was on the stand Saturday. He examined her as to her relations with Arthur Cohen, with whom Maria charges her wife of being criminally intimate.

Miss St. John said that while she and Cohen were at Monte Carlo the latter gave her a gold purse. Cohen used to call her Florence and she called him Arthur. When her husband became involved in litigation he lost him money. She received a salary of £8 pounds weekly when she first came to London, and afterwards her salary advanced to £20 a week. The most valuable present Cohen ever gave her was worth £20. She received far more valuable presents from other persons.

### JOTTINGS.

Making room for Holiday goods at "The Emporium," millinery goods at Greatly reduced prices.

Diner—Here waiter! I ordered corned beef and cabbage, and you have brought me only the meat. Waiter—De cigar, ash, will be on latish. If he had been boarding at the Riverside all that trouble would have been avoided.

There was a most copious drachm absorbed by a fellow named Schum, and shortly, lo, rats, this blousy youth hadn't anymore sense than a drachm. If he had taken one of Jake Becker's hot fumées with his drachm he would have been all right.

**French Tasty Wafers.**  
These wafers are for the relief and cure of painful and irregular menses, and will remove all obstruction, no matter what the cause, and are sure and safe every time. Manufactured by Emerson Drug Co., San Jose, Cal., and for sale only by William Pinniger.

**There is None Better.**  
Dr. R. L. St. John of Howland, Putnam county, Missouri, takes especial pleasure in recommending Chamberlain's Cough Remedy, because he knows it to be reliable. He has used it in his practice for several years, and says there is none better. It is especially valuable for colds and is a preventive and cure for croup. This most excellent medicine is for sale by J. B. McCullough, Druggist.

**Specimen Cases.**  
S. H. Clifford, New Castle, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver affected to an alarming degree, appetite left away, and he was terribly reduced in health and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Hs. risburg, Ill., had a running sore on his leg of 8 years standing. Used three bottles of Electric Bitters and soon recovered. Cases of Bucklin's Aronia Salve, and his leg is sound as well. John Specker, Catonsville, had five bottles of Electric Bitters, doctor said he was incurable. One bottle of Electric Bitters and one box Bucklin's Aronia Salve cured him entirely. Sold at W. Pinniger's Drug store.

**Inferior Goods.**  
The only safe way for purchasers is to insist on having the genuine article, and not allow themselves to be swindled by having plasters said to be "just as good," or "containing superior ingredients," imposed upon them. These are only tricks to sell inferior goods that no more compare with Alcock's Forum Plasters than copper does with gold. One trial of Alcock's Forum Plasters will convince the most skeptical of their merits.

The eminent Henry A. Mott, Jr., Ph. D., F. C. S., late Government Chemist, certifies:

"My investigation of Alcock's Forum Plasters shows it to contain valuable and essential ingredients not found in any other plaster, and I find it superior to and more efficient than any other plaster."

Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.

**Certainties.**  
"The continual dropping of water wears away the stone." So continual headache wears away the brain forces. And it is equally as true that Cephaline wears away headache, and that quickly. All druggists are agents.

**A Sure Cure for Piles.**  
Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blind, bleeding, and prurid, I find at once to Dr. Bucklin's Cream. It is a safe and certain remedy for piles, and cures them in a short time. It is also a sovereign cure for piles. Dr. Bucklin's Cream. Sold by S. J. Hodgkinson.

Baby cried,  
Mother sighed,  
Doctor prescribed: Castoria!

**Bucklin's Aronia Salve.**  
The best salve in the world for cuts, bruises, gout, rheumatism, fever sores, chapped hands, chilblains, etc., etc., skin eruptions, and positively cures piles or any rectal ailment. It is guaranteed to give perfect satisfaction, or money refunded. Five cents a bottle. Sold by Wm. "Dinner" by apothecaries.

**For Over Fifty Years.**  
Mrs. Winslow's Soothing Syrup has been used for children's teething. It soothes the child, softens the gums, relieves all pain, eases wind colic, and is the best remedy for Diarrhea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

**WILL YOU SUFFER WITH DYSPEPSIA AND LIVER COMPLAINT?** Shiloh's Vitalizer is your remedy for you. For sale by S. J. Hodgkinson.

**SHILOH'S VITALIZER** is what you need for Constipation, Loss of Appetite, Diseases, and all symptoms of Dyspepsia. Price 10 cents per bottle. For sale by S. J. Hodgkinson.

**CATARAE CURE**, health and sweet breath secured, by Shiloh's Calcareous Remedy. Price 10 cents. Mental Injector free. For sale by S. J. Hodgkinson.

**SHILOH'S COUGH AND CONSUMPTION CURE** is a safe and sure guarantee. It cures Consumption. For sale by S. J. Hodgkinson.

### OUR DUTY IN THE MATTER.

A Pointed Letter from Carson on the Fox-Mate and Norcross Controversy.

The GAZETTE is in receipt of the following letter on an important subject:

CARSON, Nev., Dec. 4, 1891.

EDITOR GAZETTE: It will not be the credit of the citizens of this State if they permit to pass unnoticed the matters being made public in the trials now in progress between the mill company and the stockholders of the Ha' and Norcross mine. There seem to be well established facts which show gross mismanagement, if not crime, upon both sides. The mill company has, according to the evidence, either failed to work the ore successfully or else proper returns have not been made to the company. The latter seems to have neglected all the ordinary rules of business in their dealing with the mills. They do not know how much ore was sent to be worked, what it was worth, nor how many tons they got back. A farmer would never send rotten apples to a cider mill in that way.

The State of Nevada has never had a more serious blot cast upon its fair name if this state of things is not reversed by the defense. Their side of the case has not been made yet, just as things look now they have much to explain.

But whatever the result of this law suit may be, the people of Nevada should take immediate steps to change the whole order of business in mining matters. The first and most important step would be to so change our laws that any one owing a mine in this State should maintain the ownership within the lines of the State, and if he or they organize a company it should be organized under the laws of Nevada and be compelled to have its offices remain in the county where the mine lies and the business is done there.

The benefits of such a system would be instantaneous and would be as much for the owners of the mines as it would for the State of Nevada, and surely no one could seriously object if he had an honest purpose. The contrary can produce the wealth ought to be good enough for the servants, owners and workmen to live in and conduct their business in. It is so important, and if our mining affairs had been organized upon that system it would have been far better for the world. To do it now will be better for Nevada than to bring in any to thousand farmers, in the way of State

Some changes in our laws and perhaps some in our constitution may be necessary, but they should be made, and it remains with the people to see that they are carried out.

The press and people should take this matter up and carry it through. The trouble with the people is they only move when under great excitement and then sometimes are overzealous and defeat themselves. If the newspapers and the honest voters of the State will take this matter up and insist upon it calmly and deliberately, there will be no power that can stand before them, and the man who opposes it can wind up his rope, for he will need it no more.

John Sunderland is dressing up more young men for the holidays than ever was known in the history of the town. The young fellows are "on" in the varieties of the day and know where to go.

### BREVITIES.

**Local and General Intelligence.**  
Call at the Merchant's Exchange for hot winter drinks.

It is clouding up again and more snow may be expected—maybe.

Everything points to a very prosperous year in Western Nevada.

Look out for the masquerade ball Christmas night at Armory Hall.

The Essex Ice Company has three inches of ice on the pond at Verdi.

This is good ice weather; the mercury dropped to zero night before last.

Attention is called to the new ad. of Richard Herz in to-day's GAZETTE.

W. Pinniger is still in San Francisco quite ill of ulceration of the vocal organs.

Douglas county farmers have voted to build a flour mill in the spring. The stock is all taken.

Beers are said to be quite numerous in the foothills about thirty miles to the northwest of Reno.

C. A. Thurston keeps everything in the news line and sells cheap, Go thee and examine his stock.

Go to John Bell's shop and take a look in one of his elegant porcelain tubs and you will feel like a new man.

The first step towards increasing the profit from your dairy will be to call the herd. Look it over and see if this is not true.

Orla L. Dibble has straddled the tripod of the Truckee *Evening Beacon*. H. A. Mason has gone to San Jose to get out of the snow for the winter.

W. Pinniger has an exhibition at his pharmacy the latest designs in Xmas goods, just received from Chicago. Everyone invited to inspect them.

Dr. Meyer of San Francisco, dental office Golden Eagle Hotel, will do dental work for the next few weeks at \$1.00. Extractions 50¢, fillings \$1.00, and plates \$4.00. All work warranted.

John Sunderland is dressing up more young men for the holidays than ever was known in the history of the town. The young fellows are "on" in the varieties of the day and know where to go.

**THE APPLE SHIPMENT.**

What the People of the North are Doing.

The N. C. & O. will ship 40 tons of apples from Honey Lake to Los Angeles to-morrow. McClellan, McDermitt and J. M. Stoberger are the shippers. This is but the commencement of other large shipments, there being 750 tons to market. The N. C. & O. has proven itself a godsend to the farmers of Honey Lake for it gives them the world for a market, which the farmers are not slow to take advantage of. The rate from Honey Lake to Los Angeles is 90 cents a hundred in carload lots, which is very low.

The farmers of that favored section have shipped out this year to this time 1,195,000 pounds of wheat and rye. This vast grain output went to Stockton, Marysville, Sinton Valley, San Francisco, Sacramento and Port Costa, to be re-shipped to all parts of the world. This does not include a good deal of wheat shipped to the Riverside Mills in Reno. The proceeds of their shipments bring in a good deal of ready money and will make the road rich in a few years. The traffic of the little road has been increasing this year, and that will be a strong argument that the road should be extended farther north in the future and the GAZETTE thinks it will undoubtedly be extended, which will prove of great benefit to the people of the north as well as to Reno.

Some changes in our laws and perhaps some in our constitution may be necessary, but they should be made, and it remains with the people to see that they are carried out.

The press and people should take this matter up and carry it through.

The trouble with the people is they only move when under great excitement and then sometimes are overzealous and defeat themselves.

If the newspapers and the honest voters of the State will take this matter up and insist upon it calmly and deliberately,

there will be no power that can stand before them, and the man who opposes it can wind up his rope, for he will need it no more.

John Sunderland is dressing up more young men for the holidays than ever was known in the history of the town. The young fellows are "on" in the varieties of the day and know where to go.

**ONE VOTE**

FOR—

—IN—

RICHARD HERZ'S

Watch—Contest!

To the person receiving the largest number of votes before January 1st, 1892, Richard Herz, dealer in watches, will present a \$1.00 Gold Watch and Chain.

I am now prepared to show you the finest line of watches, diamonds, jewelry and silverware ever shown in town.

The watch may be seen in my show window.

Miss Kate Fellows came down from Carson Saturday night.

W. H. A. Pike and James Moran were up from Wadsworth Saturday.

Hon. M. D. Foley returned from below this morning much improved in health.

Dr. Guy E. Manning has received the appointment of attendant physician to the Nursery of Homeless Children in San Francisco.

Frank Jaynes, Superintendent of the Western Union Telegraph Company, of San Francisco, was a passenger for Virginia this morning.

The owner coming in soon after, was told by his assistant of the report that his dog had a compound fracture. L. King is over carefully, he said indignantly: "Cousin compound fracture!"

Roll of Merit—Charles Boire, Aza Boire, Marvin Morehouse, George Moore, Owain Strockale, George Mosher, Robbie Thorne on.

**THE CONDYLES OF THE ULNA.**

The Sierra Valley Leader's Report of a Broken Arm.

The Sierra Valley Leader makes a specialty of the medical news of its section. Its last issue contains the following:

Mrs. J. H. Sims, fell down the stairs on Monday last, (while sitting) and broke the condyles of the ulna and radius bones at the wrist. Her face was cut also.

That is as bad a case as one that occurs in a dog.

W. H. A. Pike and James Moran were up from Wadsworth Saturday.

Hon. M. D. Foley returned from below this morning much improved in health.

Dr. Guy E. Manning has received the appointment of attendant physician to the Nursery of Homeless Children in San Francisco.

Frank Jaynes, Superintendent of the Western Union Telegraph Company, of San Francisco, was a passenger for Virginia this morning.

George Wright, the Tacoma (Washington) cattle man, is here looking into the b of market. He bought a large quantity of beef here last year and knows where to come for a first-class article.

Roll of Merit—Charles Boire, Aza Boire, Marvin Morehouse, George Moore, Owain Strockale, George Mosher, Robbie Thorne on.

**THE AGE OF MUSCLE.**

This is it undoubtedly. Never before in the history of the race did the cultivation of the muscle receive such universal attention and encouragement.

The greater sex practice every branch of callisthenics except the ironized gender.

This is well, for exercise in the essential of health. But to the female, the nervous and the dyspeptic, Hesther's Stomach Elixer affords a guarantee of permanence.

Permanence may, adroitly, be built.

Most genital and speedy tonics, it is said, the most thorough of regulation, are the best for the nervous system.

It is the best tonic for the nervous system.
